HISPANIC HEART CENTER AT THE MOUNT SINAI HOSPITAL

World Class Cardiovascular Care for the Hispanic Community

www.hispanicheartcenter.org

Located at The Mount Sinai Hospital, the Hispanic Heart Center is a heart valve center of excellence for the national and international Hispanic Community. All staff members of the center address patients in Spanish to provide a multilevel approach that enhances cultural competence and ensures a complete patient understanding. Most importantly, physicians and patients have access to a fast referral network with educational materials completely written in Spanish.

Javier Castillo, MD

Director, Hispanic Heart Center at The Mount Sinai Hospital
Department of Cardiovascular Surgery

The Mount Sinai Hospital
1190 Fifth Avenue, GP2W, Box1028
New York, NY 10029

INTERNATIONAL ACADEMIC IMPACT

The Hispanic Heart Center is a recognized leader in the field of heart valve surgery and mitral valve reconstruction, with significant presence at the largest surgical meetings of Latin America. This year, our academic contribution is being also acknowledged by the most attended Spanish-speaking cardiology conferences.

NATIONAL MEETING OF CARDIOLOGISTS

The Hispanic Heart Center will be present in Mexico to lead the plenary session on mitral valve disease and multiple breakout sessions on minimally invasive valve surgery

MERIDA, YUCATAN, MEXICO

NATIONAL MEETING OF CARDIOLOGY

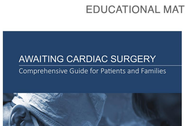
The Hispanic Heart Center will join Centro Nacional de Investigaciones Cardiovasculares CNIC in Sevilla in order to discuss current management of mitral valve disease

SEVILLA, ESPAÑA

NATIONAL MEETING OF CARDIOLOGY

The Hispanic Heart Center will be present in Argentina to lead a special program on current management of mitral valve disease. A wetlab on valve reconstruction will be offered to surgeons and trainees.

MENDOZA, ARGENTINA



NATIONAL MEETING OF CARDIOLOGY

The Hispanic Heart Center will be present in Colombia to lead a plenary session on decision-making in patients with valve disease. A wetlab on valve reconstruction will be offered to surgeons and trainees.
