

World Class Cardiovascular Care for the Hispanic Community | www.hispanicheartcenter.org

Dear Colleague,
Welcome to *Salud Cardiovascular*. We strive to provide the latest news on clinical management, innovations, and above all, effective ways to access our network. As the number of options to treat heart valve disease evolves, so does the challenge of selecting the most adequate. We will help you and your patients in Spanish.

Javier Castillo, MD
Director, Hispanic Heart Center

Estimado Colega,
Bienvenido a *Salud Cardiovascular*, publicación donde resumimos lo último en protocolos clínicos, investigación y, sobre todo, como acceder a nuestra red de facultativos. Las opciones para tratar las enfermedades cardiovasculares son cada vez más, y por ello, escoger la adecuada para cada paciente puede ser complicado. Sin duda, le ayudaremos.

Javier Castillo, MD
Director, Hispanic Heart Center

Heart Failure and Secondary Valve Disease
MAY 11, 2018 | NEW YORK

The Mitral Foundation Center at the Mount Sinai Hospital was filled to capacity for the first edition of the *Hispanic Symposium on Heart Failure and Secondary Heart Valve Disease*. Over 100 local delegates registered and represented a multidisciplinary league of professionals who help patients with heart failure and valve disease, including cardiologists, internists, primary care, geriatricians, nurses, trainees and pharmacists. The theme of the event was early identification of risk factors and symptoms of heart failure with an emphasis on state-of-the-art management. The agenda comprised a keynote lecture by Valentin Fuster, a report of outcomes by David Adams, and case discussions by Annapoorna Kini and Javier Castillo that included audience participation. Johanna Contreras gave an update on advanced heart failure therapies.

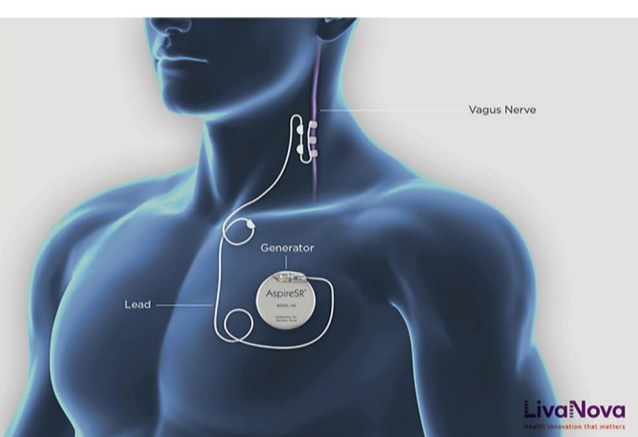

XXXVI Congreso Nacional de Cardiología FAC
MAY 31, 2018 | MENDOZA, ARGENTINA

The Annual Meeting of the *Federación Argentina de Cardiología* was held from May 29 to June 2, 2018 in Mendoza, Argentina. More than 4100 attendees from 25 countries, including internists, cardiologists, cardiovascular surgeons, exhibitors and sponsors were in attendance. The main focus of the conference was "Multidisciplinary Cardiovascular Imaging" but the scientific program also aimed attention at topics such as coronary artery disease, heart failure, valvular heart disease and basic science. Javier Castillo, Director of the Hispanic Heart Center, led the plenary session on mitral valve disease where the main cardiac surgical experts from Argentina discussed with enthusiasm, and learned to each other. Without question, this session was among the most attended of the event.

Our Patient Guide Now Available in Latin America
JUNE 6, 2018 | NEW YORK

We are all working together to provide the highest-quality care by achieving complete patient understanding. In this context, the Hispanic Heart Center has developed patient information in Spanish for those patients who are in need of cardiovascular surgery. This comprehensive patient roadmap answers every single question. The international success of the guide among patients and surgeons from other countries has triggered a special edition. A world leading medical company will make the guide available in Argentina, Colombia and Mexico by the end of the year through an educational grant.

Research at the Hispanic Heart Center
JUNE 10, 2018 | HOUSTON

The Hispanic Heart Center strives to advance patient care through application of the most innovative and advanced technologies. In this setting, LivaNova PLC, a leader in advancing cardiovascular therapies and a pioneer of Vagus Nerve Stimulation therapy, will collaborate with doctors Johanna Contreras and Javier Castillo as medical and surgical principal investigators respectively. The VITARIA™ Autonomic Regulation Therapy will be tested to treat patients with chronic heart failure (ANTHEM HF US Trial).

Tu Corazón Latino

HISPANIC HEART CENTER
Proud Host of the AHA Tu Corazon Latino Summit
September 28, 2018 - Hatch Auditorium, The Mount Sinai Hospital

Collaboration with the American Heart Association
JUNE 21, 2018 | NEW YORK

The annual meeting AHA Tu Corazon Latino Summit will be hosted by the Hispanic Heart Center at Hatch Auditorium - The Mount Sinai Hospital - on September 28, 2018. Doctor Valentin Fuster, past president of the American Heart Association, will give the keynote lecture. The main focus of the symposium will be early recognition of heart valve disease. In addition, many of our referring physicians will participate in a large research project on baseline blood pressure control in Hispanic patients.
